LESSON 17 6th Grade --- EXCEL

Name _____

1. _____ Get a partner and pick up ONE Online Excel sheet for BOTH of you. Follow the directions. Hand in the worksheet when you are finished.
2. _____ a. KNOW the info on the 2 vocabulary sheets you picked up in Lesson 16
b. KNOW the 7 skills in the yellow box on pg 144.
3. _____ On your own go to QUIA and (do NOT use any vocab sheets or your book) take the Lesson 17 Excel Vocab Test until you get 80% or better.
4. _____ You will need to go to usd417.net Computer App page and download and save as the L17 temperatures assignment for Project 8 in your textbook beginning on Page 149. (This assignment ends on Page 161). Skip the top of pg 150 and save like we always do:

Last Name. L 17. 1 temperatures 1

As you read, DO the Apply It sections throughout the Project. If the directions don't fit exactly, figure out how to accomplish what the book wants you to learn.

5. _____ When you finish the "Apply It" sections through page 161:

- Put a 4-line heading on your assignment
- Select print gridlines and print heading
- PREVIEW** your assignment - under File in the menu bar
If it is more than 1 page do NOT PRINT until you fix what needs fixing!! (You might be able to just put in 1 - 1 when you print).
- Print your assignment and hand it in.

6. _____ Pick up a Project 75 worksheet from the colored stacker box. Complete it - print it out CAREFULLY (remember check gridlines) and hand it in.

7. _____ Do the top of page 163 in your textbook. Use the Internet to find the 5 temperatures it asks you for. Call your file:

Last Name L 17 p163 temperatures 1

- Put a 4-line heading on your assignment
- Select print gridlines and print heading
- PREVIEW** your assignment - under File in the menu bar
If it is more than 1 page do NOT PRINT until you fix what needs fixing!! (You might be able to just put in 1 - 1 when you print).
- Print your assignment and hand it in.

8. _____ Work on MATH VPL.
