

PDC Minutes 10-19-09

Kelly Gentry called the meeting to order at the District Office at 3:00 pm. Those in attendance were Diane Miller, Marty White, Kelly McDiffett, Candi Martin, Christa Miller, Joe Glotzbach, Judeen Bachura, Mae Thomas, and Susan Graham.

The minutes were read and approved.

Kelly gave a follow up on Robin Frye's request for both credit and points to be awarded for a course she took. Robin requested that the PDC award credit for the course.

Kelly brought a book study proposal to the council. This involves several teachers from Council Grove Elementary. The council approved the request. The book study would involve the text RTI From All Sides; What Every Teacher Needs to Know.

The council gave consideration to requests for college credit approval that was a carryover from the Sept. meeting. In Sept. the council asked that all paperwork be given to the council to be considered at the Oct. meeting. Susan made the motion and Diane seconded that the council approve Kathy Lamberson's request for college credit in question to be put on her transcript. The council approved. Marty White made the motion and Susan seconded that Amy Finch's request for college credit in question to be put on her transcript. The council approved. The council also asked that Kelly send out that PDC will no longer accept post-dated forms for college credit. This requirement has been in effect since 2003.

The council discussed the progress of the MAP testing. There are some challenges that the buildings had not planned for. The next step after the students take the test is to interpret the results.

Because of the change in the calendar and priorities, the schedule for upcoming professional development needs to be changed. Part of this involves the change of the MTSS implementation requirements. Kelly will bring an updated Professional Development schedule to the council next month.

Susan Graham asked about creating a SOCS user group for each building. The buildings are to decide what they would like to do. Kelly will get this information out to all buildings.
