## Immunization Requirements for the 2017 - 2018 School Year

K.A.R. 28-1-20 defines immunizations required for any individual who attends school or a childcare program operated by a school. Below are the requirements for the indicated school year. Please carefully review the requirements. The usual number of doses required are listed; however there are exceptional circumstances that could alter the number of doses a child needs. If you have questions about your child's immunization status, contact your child's primary care provider or local health department.

Proof of receiving the required immunizations must be provided to the school prior to the student attending the first day of school.

Operated by a Sc	hool
Ages 4 Years and L	
Vaccine	Requirement
DTaP/DT (diphtheria, tetanus, pertussis)	4 doses
IPV (polio)	3 doses
MMR (measles, mumps, rubella)	1 dose
Varicella (chickenpox)	1 dose*
