

# PARENT/GUARDIAN GUIDE TO ENROLLMENT EXPRESS

## INTRODUCTION

Enrollment Express is a data collection system integrated into PowerSchool. Enrollment forms will be shared with you via the Parent Portal in PowerSchool (<https://usd417.powerschool.com/public/home.html>). You will see a "Forms" link on the left-hand navigation bar.

## ACCESSING FORMS

Enrollment Express forms are accessed from your Parent Portal PowerSchool account (<https://usd417.powerschool.com/public/home.html>). No separate login is necessary. Forms are tied to your child's record and can be accessed from the Forms link in the left navigation column.

## PARENT PORTAL

1. Go to <https://usd417.powerschool.com/public/home.html> in your browser (not supported through PowerSchool Mobile App or phone). If you don't have internet access, please contact your school for other options.

On this form you can enter the student's basic personal information, home address and mailing address if it is different. Please note Age is calculated based on the currently saved Date of Birth. If you submit a change to this date, it may take a few minutes to reflect this change.

Use the Save button if you do not yet want or are not yet able to send the form to the school/district but do not want to re-enter information already filled out. - You do not have all the required information but have filled out some of the information

#### When to Submit:

- You are ready to send the form to the school/district

## APPROVAL OF ENROLLMENT FORM

### APPROVAL

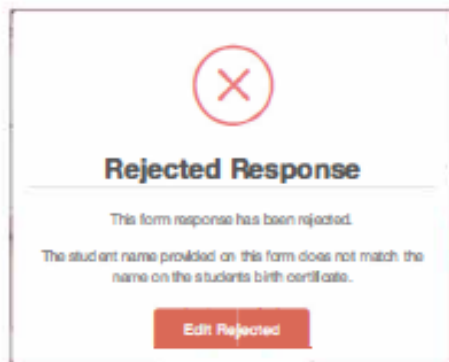

A form may be set up to require a school or district administrator to verify the information in a form when it is submitted. When that is the case, the form will go into a pending state until the administrator approves or rejects the submission. A pop-up window will open on submission, informing you the form is pending approval.

The form will have a yellow background and edited fields that need approval will have a red flag beside them. Hovering over the flag will show the current and previous response for that field. On the Ecollect Forms page, a pending form will have the status of  Pending and the row will be highlighted yellow.

If the form is approved, the status will be  Approved and the form background return to white.

If the response to the form was rejected, the form will be highlighted red in the form list and the status will be  Rejected. Clicking the form name will display the form with a red background. A pop-up window will open, letting you know the form was rejected. If the administrator indicated a reason the form was rejected, that reason will also display on the pop-up.

Click the Edit Rejected button to be able to edit your submission. Once you finish making your changes, resubmit the form. It will return to pending status.

If the form is set up to send parent notifications and you have enabled them on your account, you will receive an email when a form's status moves from Pending to Approved or Rejected.
