No board member, employee, officer, or agent may participate in the selection, award, or administration of a contract supported by Federal funds if he or she has a real or apparent conflict of interest concerning the contract.

For the purposes of this policy, a conflict of interest would include any instance when a board member, employee, officer, or agent; any member of his or her immediate family; his or her partner; or an organization which employs or is about to employ any of the parties indicated herein has a financial or other interest in or receives or would receive a tangible personal benefit from a firm considered for a contract.

KASB Recommendation – 12/16

DFAC Federal Fiscal Compliance (See CMA, CN, DFAA, and DFAB) DFAC

The board shall ensure federal funds received by the district are administered in accordance with federal requirements, including but not limited to the federal Uniform Grant Guidance. This policy outlines the district's responsibilities when federal funding is considered. The board designates the Superintendent as the federal programs coordinator and district contact for all federal programs and funding.

The Superintendent shall establish and maintain a sound fiscal management system to include internal controls and federal grant management standards covering the receipt of both direct and state-administered federal grants and to track costs and expenditures of funds associated with grant awards. The superintendent, to assist in the proper administration of federal funds and implementation of this policy, may recommend additional procedures and regulations be adopted to supplement this policy.

The district's fiscal management system shall be designed with strong internal controls, a high level of transparency and accountability, and documented procedures to ensure that all fiscal management system requirements are met. Fiscal management standards and procedures shall assure that the following responsibilities are fulfilled:

- Identification – The district must identify, in its accounts, all federal awards received and expended and the federal programs under which they were received.
- Financial Reporting – Accurate, current, and complete disclosure of the financial results of each federal award or program must be made in

accordance with the financial reporting requirements of the Education Department General Administrative Regulations (EDGAR).

- Accounting Records – The district must maintain records which adequately identify the source and application of funds provided for federally-assisted activities.
- Internal Controls – Effective control and accountability must be maintained for all federal funds, real and personal property purchased therewith, and other assets acquired with federal funding. The district must adequately safeguard all such property and must assure that it is used solely for authorized purposes.
- Budget Control – Actual expenditures or outlays must be compared with budgeted amounts for each federal award. Procedures shall be developed to establish determination for allowability of costs for federal funds.
- Cash Management – The district shall maintain written procedures to implement the cash management requirements found in EDGAR.
- Allowability of Costs – The district shall ensure that allowability of all costs charged to each federal award is accurately determined and documented.

Time and Effort Reporting by Employees

All district employees paid with federal funds shall document the time they expend in work performed in support of each federal program, in accordance with law. Time and effort reporting requirements do not apply to contracted individuals.

Recordkeeping

The district shall develop and maintain a records management plan and related board policy, administrative regulations, and/or procedures for the retention, retrieval, and disposition of print and electronic records, including emails.

The district shall ensure the proper maintenance of federal fiscal records documenting:

- Amount of federal funds,
- How funds are used,
- Total cost of each project,
- Share of total cost of each project provided from other sources,
- Other records to facilitate an effective audit,
- Other records to show compliance with federal program requirements,
and
- Significant project experiences and results.

All records must be retrievable and available for programmatic or financial audit.

The district shall provide the federal awarding agency, Inspectors General, the Comptroller General of the United States, and the pass-through entity, or any of their authorized representatives, the right of access to any documents, papers, or other district records which are pertinent to the federal award. The district shall also permit timely and reasonable access to the district's personnel for interview and discussion related to such documents.

Records shall be retained for a minimum of three (3) years from the date on which the final Financial Status Report is submitted, or as otherwise specified in federal law or in the requirements of the federal award, unless a written extension is provided by the awarding agency, cognizant agency for audit, oversight agency for audit, or cognizant agency for indirect costs. If any litigation, claim or audit is started before the expiration of the standard record retention period, the records shall be retained until all litigation, claims or audits have been resolved and final action has been taken.

The district shall ensure that all personally identifiable data protected by statute or regulation is handled in accordance with the requirements of applicable law, regulations, board policy, administrative regulations, and procedures.

Subrecipient Monitoring

If the district awards subgrants, the district shall establish procedures to:

- Assess the risk of noncompliance.
- Monitor grant subrecipients to ensure compliance with federal, state, and local laws and board policy, regulations, and procedures.
- Ensure the district's records are adjusted to cure recordkeeping issues discovered through the subrecipient's audits, on-site reviews, or other monitoring.

Compliance Violations

Employees and contractors involved in federally funded programs and subrecipients shall be made aware that failure to comply with federal law, regulations, or terms and conditions of a federal award may result in the

federal awarding agency or pass-through entity imposing additional conditions or terminating the award in whole or in part.

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

Purchase Methods

When a request for expenses for construction, reconstruction, or remodeling or for the purchase of materials, goods, or wares has been submitted and approved as outlined below, the procurement method to be used will be determined based on the type of purchase and the total cost of the purchase as further outlined below. This procedure outlines how the cost thresholds for determining when the quote or formal bidding procedures that are required by state law as reflected in Policy DJED must be modified when making purchases for federally funded purposes to which the Uniform Grant Guidance or USDA regulations apply to comply with both state and federal requirements. At each point where requirements for food service-related procurement under USDA regulations differ, a note will refer to the Food Service Program Notes at the end of this procedure. Final determination of which purchasing procedures are to be applied is delegated to the { } *Purchasing Agent* { } *Superintendent* { } *Business Manager* under the authority of the Board.

Standard Procurement Documents and Purchase Request Process

The district shall use { } *purchase orders* { } *requisitions* for purchase requests in accordance with the applicable purchase method.

The district shall use { } *paper* { } *electronic* purchasing records, which are pre-numbered and are accessible to designated purchasing staff in { } *the district office* { } *the business office* { } *Purchasing Agent's office* { } *Other* _____.

Purchase requests by an employee must be submitted to the building administrator or immediate supervisor. Purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by use of a purchase order or requisition submitted to the purchasing agent. Purchase orders and requisitions shall contain information including, but not necessarily limited to:

1. Description of the services to be performed or goods to be purchased;
2. Location of where services will be performed or goods will be delivered;
3. Appropriate dates of service or delivery;
4. { } Other (describe) _____.

Documentation on purchase orders and requisitions shall be maintained in accordance with the district's Public Records policy (CN) and Federal Fiscal Compliance policy (DFAC).

Contracts shall be reviewed by the { } *Board Clerk* { } *Business Manager* { } *Superintendent* { } *Board's Attorney* prior to submission to the board for approval.

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

Contracts to which the Uniform Grant Guidance apply shall contain the clauses specified in Appendix II to 2 CFR Part 200 (Contract Provisions for Non-Federal Entity Contracts Under Federal Awards), when applicable.

[See Food Service Program Notes below for specific clauses required by USDA regulations to be included in cost reimbursable procurement contracts.]

Micro-Purchases Not Requiring Quotes or Bidding

For purposes of this procedure, **micro-purchase** means a purchase of supplies or services for use in federally funded programs using simplified acquisition procedures, the aggregate amount of which does not exceed a base amount of \$3,500. The micro-purchase dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$3,500.(48 CFR Subpart 2.1)

Note: The micro-purchase maximum for federal purposes is lower than the amount below which the Policy DJED allows purchase for nonfederal purposes to be made without using formal competitive bidding.

The micro-purchase method is used to expedite the completion of its lowest dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold.

To the extent practicable, the district distributes micro-purchases equitably among qualified suppliers when the same or materially interchangeable products are identified and such suppliers offer effectively equivalent rates, prices, and other terms. The { } *Superintendent* { } *Business Manager* { } *Purchasing Agent* { } *Board Clerk* { } *Board Treasurer* will be responsible to determine the equitable distribution of micro-purchases.

Micro-purchases may be awarded without soliciting competitive quotations if the district considers the price to be reasonable. The district will maintain evidence of this reasonableness in the records of all micro-purchases. **Reasonable** means that sound business practices were followed, and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Even if the cost of a purchase qualifies it as a micro-purchase, bidding or small purchase procedures may be used optionally when those procedures may result in cost savings.

Small Purchase Procedures

For purposes of this procedure, **small purchase procedures** are those relatively simple and informal procurement methods for securing materials, goods, or wares or for completing construction, reconstruction, or remodeling that cost more than the amount qualifying as a micro-

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

purchase and do not cost \$20,000 or more, or in the case of services other than construction, reconstruction or remodeling, where the total cost does not exceed the \$150,000 federal Simplified Acquisition Threshold at which formal competitive bidding or competitive proposals are required. Small purchase procedures cannot be used for construction, reconstruction or remodeling costing \$20,000 or more or for the purchase of materials, goods or wares costing \$20,000 or more because the board policy and Kansas law requires formal competitive bidding at that level of cost.

The base amount at which bidding is required under state law for construction, reconstruction or remodeling or for the purchase of materials, goods or wares is \$20,000. (K.S.A. 72-1151)

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$150,000. (48 CFR Subpart 2.1)

Because state law does not require **competitive** bidding for the purchase of services other than for construction, reconstruction or remodeling with a cost in excess of \$20,000, small purchase procedures, including a request for proposal (RFP) procedure, may be used for procurement of such other services except when the estimated total cost will be at or over the federal threshold at which formal competitive bidding or competitive proposals are required (\$150,000).

[See Food Service Program Notes below for exemption from bidding for purchases of perishable food items costing less than \$150,000.]

Formal Competitive Bidding

Publicly Solicited Sealed Competitive Bids:

For construction, reconstruction, or remodeling or for the purchase of materials, goods or wares, sealed competitive bids are publicly solicited and awarded to the lowest responsible bidder as provided in Policy DJED when the total cost is estimated to be \$20,000 or more.

Note: The amount at which formal competitive bidding or competitive proposals are required by federal regulations is much higher than the base amount at which the policy and state law requires competitive bidding. Therefore, the lower base amount specified by Policy DJED will be used for purchases of equipment or supplies, or for obtaining services for construction, reconstruction or remodeling costing \$20,000 or more.

State law does not require bidding for the purchase of services other than for construction, reconstruction or remodeling regardless of total cost. For procurement of such other services for federally funded purposes to which the Uniform Grant Guidance applies, formal competitive bidding or competitive proposals will be used when the estimated total cost will be at or over the federal threshold of \$150,000.

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than \$150,000. (48 CFR Subpart 2.1)

For procurement of services costing at or over the \$150,000 federal threshold other than for construction, reconstruction or remodeling, the use of competitive sealed bidding is considered feasible and appropriate when:

1. A complete, adequate, and realistic specification or purchase description is available;
2. Two (2) or more responsible bidders are willing and able to compete effectively for the business; and
3. The procurement lends itself to a firm fixed-price contract, and the selection of the successful bidder can be made principally on the basis of price.

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Competitive Proposals

State law does not require public school entities to solicit competitive bids for services other than for construction, reconstruction or remodeling, for which competitive bidding is required if the cost will be a base amount of \$20,000 or more.

Federal regulations allow the use of competitive proposals as an alternative to formal competitive bidding when conditions are not appropriate for the use of sealed bids.

In the case of services other than for construction, reconstruction or remodeling costing less than that threshold, the district may use small purchase procedures or micro-purchase procedures as applicable based on total cost. A request for proposal (RFP) process can also meet or exceed the small purchase competition requirements under state law and Policy DJED for the acquisition of services other than for construction, reconstruction or remodeling, and can be used if the total cost will be less than \$150,000.

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Competitors' qualifications are evaluated, and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The district shall comply with other

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

applicable state and federal law and regulations, board policy and administrative regulations or procedures regarding purchasing; the district may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.

If this method is used, the following requirements apply:

1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
2. Proposals must be solicited from an adequate number of qualified sources.
3. There must be a written method for conducting technical evaluations of the proposals received and for selecting recipients.
4. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.
5. Competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified is selected, subject to negotiation of fair and reasonable compensation, are allowed. The method where price is not used as a selection factor can only be used in procurement of A/E professional services and cannot be used to purchase other services through A/E firms.

Competitive proposals shall be evaluated by the { } *Superintendent* { } *Business Manager* { } *Federal Programs Coordinator* based on factors including but not limited to:

1. Cost.

{ } *Experience of contractor.*

{ } *Availability.*

{ } *Personnel qualifications.*

{ } *Financial stability.*

{ } *Minority business, women's business enterprise, or labor surplus area firm status.*

{ } *Project management expertise.*

{ } *Understanding of district needs.*

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

Other _____

Evaluations shall be completed in a timely manner, documented and shall be reviewed by the *Board* *Superintendent* *Business Manager* *Federal Programs Coordinator* *school solicitor*.

Contract/Price Analysis

The district performs a cost or price analysis in connection with every procurement action in excess of \$150,000, including contract modifications. (2 CFR Sec. 200.323(a)).

A **cost analysis** generally means evaluating the separate cost elements that make up the total price, while a **price analysis** means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the *Superintendent* *Business Manager* *Federal Programs Coordinator* must come to an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.323(a)). As part of the analysis, the _____ will enact established business practices which may include evaluation of similar prior procurements and a review process.

Negotiated Profit

In any procurement in which there has been no price competition, or in which a cost-analysis is performed, profit must be negotiated separately as an element of price. Accordingly, solicitations of bids, proposals or quotes shall require that bids, proposals or quotes be limited to costs other than profit, and exclude profit.

To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. (2 CFR Sec. 200.323(b)).

When profit must be negotiated as a separate element of the total price, it shall be negotiated by the *Superintendent* *Business Manager* *Federal Programs Coordinator*.

Noncompetitive Proposals (Sole Sourcing)

Procurement by noncompetitive proposals means procurement through solicitation of a proposal from only one (1) source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source.

DFAC PROCUREMENT -- FEDERAL PROGRAM

(Sample Procedure)

2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An **emergency** exists whenever the time required for the board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes.
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the district.
4. After solicitation of a number of sources, the district determines the competition is inadequate.

In addition to standard procurement policy and procedures, the district will document the grounds for using the noncompetitive method in lieu of an otherwise required competitive method of procurement, which may include written confirmation from the contractor as the sole source of the item. Documentation must be submitted to and maintained by the district office.

All noncompetitive proposals will ultimately be approved by the board. The district may utilize legal advice regarding noncompetitive proposals.

Profit must be negotiated separately for noncompetitive proposals, and a cost or price analysis will also be performed for noncompetitive proposals when the price exceeds \$150,000.

Purchase Cards

The district approves the use of procurement cards for permissible purchases by designated employees to improve the efficiency of purchasing activities, reduce processing expenses, improve controls for small-dollar purchases, and streamline contractor payment.

Procurement cards may be used for purchases under federal programs.

Full and Open Competition

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 CFR Sec. 200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business.
2. Requiring unnecessary experience and excessive bonding.
3. Noncompetitive pricing practices between firms or between affiliated companies.

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

4. Noncompetitive contracts to consultants that are on retainer contracts.
5. Organizational conflicts of interest.
6. Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement.
7. Any arbitrary action in the procurement process.

Minority Businesses, Women’s Business Enterprises, Labor Surplus Area Firms

The district must take necessary affirmative steps to assure that minority businesses, women’s business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (2 CFR Sec. 200.321)

1. Placing qualified small and minority business and women’s business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources.
3. Dividing total purchasing requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business and women’s business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women’s business enterprises.
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
6. Requiring the prime contractor, if subcontracts are let, to take the affirmative steps listed above.

Geographical Preferences Prohibited

The district must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals for purchases made with federal funds, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

[See Food Service Program Notes below for permissibility of geographic preferences and “Buy American” practices in purchasing certain food products]

Prequalified Lists

The district must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the district must not preclude potential bidders from qualifying during the solicitation period.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Solicitation Language

The district must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

Avoiding Acquisition of Unnecessary or Duplicative Items

The district must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis must be made of leases versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

These considerations are given as part of the process to determine the allowability of each purchase made with federal funds. Such considerations are accessible in the procedure to Policy DFAC: Allowability of Costs – Federal Programs.

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

Use of Intergovernmental Agreements and Cooperative Purchasing

To foster greater economy and efficiency, the district enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services, as permitted by the Intergovernmental Cooperation Act.

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the district shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable procurement methods, requirements, and standards of the Uniform Grant Guidance as outlined in this procedure.

Use of Federal Excess and Surplus Property

The district considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

Debarment and Suspension

The district awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

The district may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over \$25,000 the district verifies that the contractor with whom the district intends to do business is not excluded or disqualified. (2 CFR Part 200, Appendix II, and 2 CFR Sec. 180.220 and 180.300).

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The { } *Business Manager* { } *Federal Programs Coordinator* will be responsible for verification. Such verification may include accessing the online federal System for Award Management (SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

Maintenance of Procurement Records

The district must maintain records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

Maintenance of records of procurement will be governed by board Policies CN and DFAC.

Time and Materials Contracts

The district may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. **Time and materials type contract** means a contract whose cost to the district is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the district must assert a high degree of oversight to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Settlements of Issues Arising Out of Procurements

The district alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the district of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

Protest Procedures to Resolve Dispute

The district maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, board policy and administrative regulations and procedures, and the advice of the board's legal counsel.

Food Service Program Notes:

Exemption from Bidding for Perishable Food Items -

Kansas law exempts purchases of food and foodstuffs necessary for the implementation or operation of any child nutrition program from bidding requirements. Bidding for such items is required only if the cost would be at or over the federal threshold at which formal competitive bidding is required (\$150,000). Small purchase procedures may be used for purchases below \$150,000, or micro-purchase procedures for purchases below \$3,500. Use of bidding should be considered as an option if it is feasible and likely to result in cost savings.

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

Geographic Preferences -

The district is permitted to apply a geographic preference when procuring unprocessed, locally grown or locally raised agricultural products. When a geographic preference is applied, the district has discretion to determine the local area to which the geographic preference option will be applied.

Unprocessed locally grown or locally raised agricultural products means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation techniques shall not be considered as changing an agricultural product into a product of a different kind or character: cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two (2) or more types of vegetables or fruits in a single package); the addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk. (7 CFR Sec. 210.21, 215.14a, 220.16)

Buy American -

The district shall purchase, to the maximum extent practicable, domestic commodities or products for food service purposes. The term **domestic commodity or product** means: (7 CFR Sec. 210.21, 220.16)

1. An agricultural commodity that is produced in the United States; and
2. A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

Mandatory Contract Clauses -

The following provisions shall be included in all cost reimbursable contracts for food services purchases, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts: (7 CFR Sec. 210.21, 215.14a, 220.16)

1. Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;
2. (a) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or

DFAC PROCUREMENT – FEDERAL PROGRAM

(Sample Procedure)

- (b) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;
3. The contractor's determination of its allowable costs must be made in compliance with the applicable departmental and program regulations and Office of Management and Budget cost circulars;
 4. The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the state agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;
 5. The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and
 6. The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the state agency, or the department.

Contracts with Food Service Management Companies -

Procedures for selecting and contracting with a food service management company (FSMC) shall comply with guidance provided by the Kansas State Department of Education, Division of Child Nutrition and Wellness, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 215.14a, 220.16)

Pre-Plated Meals -

Procedures for selecting and contracting with contractors of pre-plated meals shall comply with guidance provided by the Kansas State Department of Education, Division of Child Nutrition and Wellness, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 220.16)

Posting Securities

All investments of district monies shall be secured to 100% of the amount of district monies by F.D.I.C. coverage, a pledge of direct federal obligations, or direct guaranteed federal agency deposits in accordance with requirements of state law. Exceptions to the required posting of securities shall be only as provided by law and with approval of the board.

All offerings of monies for investment shall state the amount to be invested and the maturity date of each investment.

All banks and savings and loan associations (hereafter "financial institution(s)") with main or branch offices located within the district and the county or counties in which part of the district is located shall be given an opportunity to respond to requests for proposals on monies offered for investment. All responses shall be directed to the superintendent and shall be specified on the basis of simple interest.

Distribution of monies for investment shall be as follows:

The treasurer or other person designated by the board shall inform each eligible financial institution of the total amount of money to be invested on a specified date and the maturity date of the investment. Each financial institution responding shall submit a single proposal of the rate of interest it would pay on all or part of the funds to be invested.

Monies shall be invested with the financial institution offering the highest interest rate in such amount as the financial institution will accept, and any remaining amounts shall be invested with the financial institution(s) offering the next highest interest rates in such amounts as it will accept until all funds offered for investment are invested. No financial institution shall be eligible to receive any funds in the same offering at a rate lower than its proposal rate.

No proposal less than the most recently determined investment rate as defined in K.S.A. 12-1675a shall be accepted unless otherwise authorized by K.S.A. 12-1675. No funds will be invested for maturities of more than two years.

Any monies not otherwise invested in eligible financial institutions located in the district due to their inability, for whatever reason, to accept the funds, shall be invested in secured deposits in financial institutions which have offices located in counties in which a part of the school district is located.

Any monies not invested in financial institutions in the district or located in counties in which a part of the school district is located may be invested as authorized by Kansas law.

Monies available for reinvestment as a result of maturities may be reinvested with the financial institution holding such monies provided the financial institution agrees to pay the same or higher rate as that offered by the highest proposal at the time the requests for proposals were accepted.

In the event of identical high proposals, the allocation of monies to be invested between the financial institutions offering the high proposals shall be at the discretion of the superintendent.

The treasurer shall record the following information: the date of each request for proposal; the name of each financial institution notified; the name of the officer notified; the proposal; the amount of monies the financial institution is willing to accept at the rate proposed.

To be eligible to receive invested funds or deposits from the district, any otherwise eligible financial institution shall have on file in the office of the district treasurer a letter requesting its inclusion in any request for proposal and providing proper assurance of compliance with requirements of applicable laws and board policy relating to maintenance of proper security and assurance of its membership in good standing consistent with current federal regulations. The superintendent shall report monthly to the board on the district's investments.

Unpaid Fees and Negative Account Balances

Unpaid or overdue accounts disrupt accounting practices within the district. All persons who owe overdue fees or have negative account balances with the district shall be notified of the delinquency up to three times in not less than ten day increments by the superintendent or superintendent's designee via letter sent by U.S. First Class Mail providing that the individual owes the district fees or that a specified account has insufficient funds or a negative balance and the reason for the fees or account withdrawals.

If, within ten days after the second notice was mailed, the debt is not paid in full or arrangements have not been made with the superintendent or superintendent's designee to pay it, a third and final notice shall be sent to the debtor by mail. Postage and stationary costs may be added to the original bill.

If full payment is not received by the clerk within ten days after mailing of the final notice, authorization for the enforcement of collection may be obtained through the local small claims court in compliance with Kansas statutes, the superintendent or superintendent's designee may turn the matter over to legal counsel to commence debt collection proceedings on behalf of the district, or the matter may be handled through the Kansas SetOff Program.

Insufficient Funds Checks

Option 1:

The superintendent or the superintendent's designee is authorized to request charges to be filed against a person or persons giving worthless or insufficient fund checks to the school district. In addition, the board adopts the

following procedures for dealing with returned checks in the school setting.

Once the person is notified of the first returned check via U.S. First Class Mail, if restitution is made within five working days from the notification being mailed, there will be no charge for a returned check. If after a second notification is sent, restitution is not made within an additional five working days, a fee of \$10.00 will be charged.

- If a person has a second returned check, he/she will be notified and assessed a \$15.00 fee, providing restitution is made within five working days. After the second notification is mailed concerning the second returned check, a fee of \$20.00 will be assessed.
- For a third returned check, the person will be notified, assessed a \$30.00 fee, and informed that the district and its schools will not accept any future checks from such person. All future payments to the district or individual schools would then need to be in the form of cash, cashier's check, or credit/debit card payment.
- If restitution of the third check is not made within five working days from mailing the final notification, the superintendent or superintendent's designee will be notified, and the superintendent or superintendent's designee may turn the matter over to the county attorney for legal action.

Option 2:

The superintendent or the superintendent's designee is authorized to retain the services of a bad check collection agency to collect funds due to the district upon receipt of insufficient funds checks.
